AIR CONDITIONING IN ENTIRE FACILITY!

Flexible Summer Sessions!!

Registering for even just one session over the summer will help your child maintain skills! When your son or daughter takes the summer off, they go three months without practicing the skills that has taken a lot of time to obtain.

In the summer, we offer six weeks of classes split into 3 two week sessions. What does this mean to you? This means that you can pick and choose the weeks that fit into your summer schedule. This way your child can maintain their skills without making an all summer commitment.

Gymnastics is a sport that requires repetition in order to progress. It is important to continue doing gymnastics in order to improve!!
